PROFILE

passionate about Data Analysis and Business Intelligence. I started my data-related work through a program called Digital Egypt Pioneers Initiative (DEPI). I have had the chance to work on a variety of real-world tasks, projects, and interactive dashboards.

EDUCATION

Mansoura Universty <i>Computer Engineering</i>	09/2024 – Present Egypt, Mansoura
--	--------------------------------------

PROFESSIONAL EXPERIENCE

Digital Egypt Pioneers Initiative - DEPI <i>Data Analyst trainee</i> • Data cleaning and analysis using Excel and Python • Built interactive dashboards using Power BI • Extracted insights to support business decisions • Worked on real-world data projects	11/2025 – Present hybrid
--	-----------------------------

SKILLS

• Python	• SQL	• Excel
• Data visualization	• Pandas	• Numpy

COURSES

Supervised Machine Learning: Regression and Classification <i>DeepLearning.AI</i>	10/2025 – 11/2025 Remote
AI and Machine learning <i>Sprints x Microsoft</i>	07/2025 – 08/2025 Remote

PROJECTS

Emergency-Wait-time
tools(python- SQL - Power BI)

- Analyze patient journey from registration to medical consultation
- Identify **bottlenecks** causing delays
- Evaluate the impact of **staff availability (doctors & nurses)**
- Measure hospital performance using key KPIs

Countries Analysis

tools(web scraping-python - Excel)

- Collect real-world data from the web using scraping techniques
- Clean and transform raw data into an analysis-ready format
- Analyze global population and area metrics
- Build an informative and visually attractive dashboard

COVID-19 Data Analysis

tools(python - SQL - Excel)

- **API Data Retrieval** – Pull real-time COVID-19 data.
- **Data Transformation** – Convert JSON data into Pandas DataFrame.
- **Data Warehousing** – Store structured data in PostgreSQL/MySQL.
- **SQL Analysis** – Query the database to generate insights.
- **Dashboarding** – Visualize trends and key metrics in Excel.
